The Franchi's Plus

EVOLVED ERGONOM-X

Ergonomics is at the core of every Franchi project.
The latest evolution of the studies on the hunting habits of more than a thousand hunters, Evolved Ergonom-X returns the shotgun with perfect shapes, ensuring ideal comfort in every shooting position. As a result of this development, the exclusive Allround Interlacement checkering ensures a quick and safe embracing. The firearm becomes the natural extension of the hunter's arm.

DEPENDA BOLT

The super-smooth, efficient and safe operation gives the hunter absolute certainty when it matters most.

TSA RECOIL PAD

Semi-automatic shotguns, excluding the Compact version, and bolt action rifles are equipped with TSA (Twin Shock Absorber) recoil pads that reduce recoil by 50%. This provides hunters with a sense of utmost comfort during shooting.
The recoil pads are available in various heights and have been designed to withstand even the most extreme temperatures.

FRONT INERTIA

The Front Inertia operating system is a reliable feature found in all Franchi semiautomatic shotguns. By housing the recoil spring in the forend around the magazine tube, this design makes cleaning simple, improves balance, reduces muzzle climb, and helps diminish recoil.
As a result, your hunting experience is enhanced, allowing for a more enjoyable pursuit of your passion.

MOA GUARANTEE

Franchi bolt action rifles, are subjected to cyclical precision tests to ensure 1 M.O.A. accuracy on 3 rounds using high-quality ammunition.

RELIA TRIGGER

The bolt action rifles feature a sharp and clean adjustable trigger, ensuring perfect control for a precise and safe shot.

OMNI STOCK ADJUSTABLE FIT

Each semiautomatic is equipped with an adjustable stock in the drop and cast, to ensure the best hunting experience.

7 YEAR WARRANTY

The bolt action rifles feature a sharp and clean adjustable trigger, ensuring perfect control for a precise and safe shot.

TSA GEN 2 RECOIL PAD

The TSA Gen 2 is designed to make your semiautomatic feel truly yours from the very first mount. Reduces recoil and vibration, improves stability, and makes handling cleaner, shot after shot. Thanks to the recoil pad and spacers, it offers 9 stock length configurations, from 341.5 mm to 390 mm.

ZIP LOAD SYSTEM

The Zip Load system makes loading and unloading faster, easier, and more intuitive. The split carrier latch lever with enlarged button, require less force for smoother operation, while the redesigned ergonomic trigger guard makes cartridge insertion easier.

QUAIL AND PEAS

DIFFICULTY Medium
PREPARATION 1h
SERVES 4
GAME Quail
CALORIES 318 Kcal
CHEF Matteo Vergine

INGREDIENTS

N 2 quails
G 10 honey
G 30 soy miso
G 50 water
G 5 chili pepper
G 10 elderberries
G 5 pepper
G 5 bay berries
G 5 cacao nibs
Butter to taste
G 800 fresh peas
G 20 egg yolk bottarga

WINE Collio Sauvignon DOC

PREPARATION

Start by blanching G 400 of peas in water for 3', then stop the cooking process by placing them in a bowl of ice water. Drain the peas and shell them, keeping the skins.

Cook the remaining G 400 of peas in lightly salted boiling water for 6-7'. Once cooked, blend the shelled peas together with the skins until you achieve a smooth, glossy puree. Combine the shelled peas with the pea puree and keep everything warm for plating.

Mix the honey, miso, water, chili pepper, elderberries, and cacao nibs. Using a brush, coat the quails both inside and out, then place them in the refrigerator for at least 24 h. Every 4 h, baste the quails with the remaining marinade until it's finished.

Cook the quails over a grill or in a skillet, basting them with butter, until they reach a pink center.

Finally, cut the quails in half, removing the internal bones. Arrange the peas with their puree and the egg yolk bottarga on a plate, then place the halved quail on top.
